### Origin of materials

The main components (heat exchangers, burners, casings, valves and control units) are sourced from the European Union and assembled and integrated in the Czech Republic.

The value added in the European Union exceeds the minimum threshold required under EU preferential origin rules.

---

### Preferential origin statement

The goods described above comply with the rules of origin of the European Union and therefore qualify as **goods of EU origin** for preferential trade purposes under EU free trade agreements (including EU–Georgia DCFTA).
